Summary

Energetic and dedicated professional with a passion for learning and a drive to excel.

Education

btech • Presidency university, Bangalore

Aug 2021 - Present

computer engineering (specialization in ai & ml) • Grade: 70%

I am a Student from Presidency University Bangalore actively engaged in:

- Acquiring expertise in developing, managing, and operating robust and dependable websites using HTML, CSS, and JavaScript, with a forthcoming project to showcase my skills.
- Pushing my limits by consistently waking up early to maximize productivity during the day.
- Demonstrating dedication by dedicating a minimum of 6 hours daily to coding practice.
- Prioritizing personal well-being by committing to exercise routines three times a week.

Projects

Generative ai project

Aug 2023 - Present

- Developed and deployed a chatbot utilizing Google Colab, Langchain, and Gradio for enhanced user experiences.
- Implemented cutting-edge natural language processing algorithms to facilitate seamless conversational interactions.

Achievements and Awards

introduction to data science

Aug 2023

Presidency university, Bangalore

- Successfully completed the Introduction to Data Science course issued by Cisco, gaining comprehensive knowledge and skills in the field.
- Collaborated with a team to design and implement data-driven solutions, resulting in improved business processes and decision-making.
